d) If there are **no sales** to be reported for the reporting period, select ‘I have no new eligible items that were sold within the reporting period’ to submit a NIL report.

e) If there are **returns** to report, select ‘Yes’ and enter the number of units returned. (Returns are only to be reported on products that are returned to be re-sold as new).

In the **returns** section, you will be permitted to select a reporting period to associate with the returns. In general, you should associate the reporting period in which the goods were returned. However, you will also be permitted to select a prior reporting period, to reflect the reporting period in which the returned units were originally sold if required. This may be required if the product was originally sold in a period where the environmental fee on the product differed from current rates. For example, if you sold the product in a period where the environmental fee on that product category was \$2.00, and the product is later returned in a period where the environmental fee is \$2.50, you can report the return at the \$2.00 rate by associating the return to the prior reporting period when the product was originally sold.

- f) If there are **disposals** to report, select 'Yes' and enter the number of units for disposal. Disposals are only to be reported on products that are scheduled for disposal but for which the environmental fee has not been submitted to the program.

Disposals are products that you did not sell and which entered the program for recycling / end-of-life management. Expired paint, frozen paint or mistints are examples of products that should be reported as disposals.

- g) Once complete, select "Next".
- h) Review your report and check off box to agree you have read, understood, and accept the terms and conditions.

8. UPDATING YOUR SUPPLIER & CUSTOMER INFORMATION

As a registered Supplier it is your responsibility to keep your supplier and customer information up to date.

Customers – List all Alberta-based re-seller customers. These are customers who purchase program eligible material from you for the purpose of re-selling.

- If your customer is a reseller not registered with the Program, they may not appear in an ARMA Connect search (i.e., you will need to add them manually). For these customers, you must charge the environmental fee. Please advise those customers who are re-sellers but not registered with the Program to contact ARMA to complete their registration.
- If your customer is an end user (a customer or business that is not a reseller), you must charge an environmental fee.

Please contact ARMA if you require further clarification on your customer's reporting status with the Program.
